

NOZZLE VACUUM SEALER SELF-CONTAINED COMPRESSOR

CAVS-SERIES

sealersales

Plug-N-Play Unit - No Compressor Required

- 100% Maintenance Free Venturie Vacuum Pump
- Intuitive Design
- Extensive Safety Features
- Rust Treated Powder Coated Steel Chassis
- Clean Room Compatible
- Two Year Warranty

MADE
IN THE USA

A completely self-contained vacuum sealing solution, the **CAVS-Series Vacuum Sealers** are ready to perform out of the box, giving greater flexibility for placement locations within your facility. The CAVS features an internal air compressor, eliminating the need for an external air compressor.

At the push of a foot pedal the CAVS draws a vacuum around your products; its automated stainless-steel nozzle then subsequently retracts before its 1/4" wide-sealing element delivers a leak proof seal to seal a variety flexible bags including clear, foil (Mylar), mil spec and ESD bags. In a matter of seconds your product is sealed and protected.

The CAVS-Series lead the industry in seal speed while delivering clean wrinkle-free seals without any bag distortion. The units will not fire an impulse until the upper and lower jaw completely meet, further ensuring operator safety and uncompromised seal integrity.

SPECIFICATIONS	CAVS-20	CAVS-30
SEALING LENGTH	20"	30"
SEAL WIDTH	1/4"	1/4"
AIR REQUIREMENTS	NONE	NONE
VACUUM FLOW (CFM)	1.6	1.6
MAX VACUUM PRESSURE (inHG)	27	27
AMPS@120 VOLTS AC	10	15
DIMENSIONS (LxWxH)	28" x 10" x 12"	40" x 10" x 12"
WEIGHT (LB)	NET: 57 / GROSS: 65	NET: 75 / GROSS: 85

Optional
Work Tray

ADDITIONAL OPTIONS

- Bi-Active Seal
- Stainless Steel Upgrade
- CE Certification
- Vacuum Filter
- Vacuum Regulator
- Voltage: 220V
- Dual Nozzle
- Digital Temperature Controller
- Working Tray - 20" x 12"
