Wireless Integrated Scale for Shipping

- **Heavy duty designed for warehouses**
- **Wireless integration with UPS and FedEx**
- **Stainless steel platform**
- **AC/DC adaptor or AA batteries (included)**

Our **DW-70** wireless shipping scale features a sleek, low-profile design that saves valuable workspace while supporting loads up to 400 lbs. Built for efficiency and accuracy, this scale seamlessly integrates into high-volume shipping environments.

- **Wireless Data Transmission** – Sends weight data to a computer workstation from up to 30 feet away, reducing cable clutter and improving workflow.
- **UPS® & FedEx® Software Integration** – Eliminates manual weight entry by transmitting data directly into UPS and FedEx shipping software.
- **Portable, User-Friendly Design** – Integrated hand-hold handle allows for easy transport and repositioning.
- **Precision Load Cell System** – High-quality strain gauge load cells deliver consistent, accurate readings across the full capacity range.
- **Heavy-Duty Stainless Steel Platform** – Designed to withstand repeated use under heavy loads.
- **Dual Unit Display** – Toggle between pounds (lb) and kilograms (kg) for added flexibility.
