Quickly and easily seal and vacuum your packages with the touch of a button with our **AVC-20 Chamber Vacuum Sealer**. The solution for your sensitive components packaging program, the AVC-20 is hand assembled using top grade materials and components. The AVC-20 is compressed air driven, eliminating any concern regarding noise, vibration or heat generation. Unlike electromechanically driven vacuum sealers, the design of the AVC-Series vacuum sealers prevents particle generation and oil contamination that often lead to costly maintenance and downtime.

Clean Room compatible, the AVC is the ideal choice for tray, tape and reeled products, as well as popular shipping tubes. Precision components guide the AVC's industry setting seal speed and ensure clean, wrinkle-free seals without any bag distortion.

Order an optional second seal bar, and the AVC instantly doubles smaller package volume.

SPECIFICATIONS	AVC-20
CHAMBER SIZE	22"L X 22"W X 4"H
SEAL LENGTH	20"
SEAL WIDTH	1/4"
VACUUM FLOW	18CFM
MAX VACUUM PRESSURE	28.5 inHG
AIR REQUIREMENTS	18CFM@90PSI
AMPS@120 VOLTS AC	8
SIZE	29" X 24" X 12"
WEIGHT	92-LBS / 108-LBS

Optional Stand

ADDITIONAL OPTIONS

- Gas Flush (Model AVCG-20)
- Additional Seal Bar
- Stand
