sealersales

Seal and Print at the Same Time - Now with a Wider 15mm Seal

- Easy to operate with fast warm up
- Durable stainless steel construction
- Built-in coder to print date, lot codes, etc.
- Wider seal width: 15mm (Optional 20mm)
- Feeds right to left
- Vertical configuration available to seal liquids
- Recommended for materials such as polyethylene, polypropylene, laminated foil

Our **FRM-1010 Stainless Steel Band Sealer** is built for high-speed, reliable sealing across all types of thermoplastic bags. Providing a wider 15mm seal, the FRM-1010 is a heavy duty unit providing excellent seal quality. Constructed with durable stainless steel, the FRM-1010 is built for long-lasting performance and ease of use. In addition, dry ink coding comes standard on this band sealer allowing you to easily print a lot code or expiration date directly on the seal line ensuring compliance and traceability.

Easy to use with minimal training, the FRM-1010 features a fast warm-up time and a solid-state digital temperature controller for consistent seal quality. The adjustable conveyor and motorized rubber belt ensure smooth operation, while knurled pressure rolls provide variable pressure control. An optional vertical configuration unit is available to seal stand up pouches or bags with liquids.

Spare parts kit include PC Board, PTFE belt, drive belts, and typesets, with additional typesets and parts available for purchase.
